Who We Are

Built in South Africa. Built for compliance.

ISOGuardian is a South African technology company on a mission to make ISO compliance accessible, affordable, and effortless for businesses of all sizes.

We believe that compliance shouldn't be a burden. It should be a competitive advantage. Our platform replaces the spreadsheets, filing cabinets, and manual processes that cost businesses thousands of hours each year — with a single, intelligent system that does the heavy lifting for you.

Founded in 2026 by Tyreece Kruger, ISOGuardian was born from first-hand experience of the pain points that South African businesses face when pursuing and maintaining ISO certification. We're not just building software — we're building the future of compliance in Africa.

Website	www.isoguardian.co.za
Phone	+27 71 606 0250
Address	1 Goodwood Avenue, Comet, Boksburg, Gauteng, 1459
VAT	Pending

The Platform

Everything you need. Nothing you don't.

ISOGuardian replaces fragmented tools with one unified platform. Every feature is purpose-built for ISO compliance — designed by people who understand what auditors expect and what quality managers need.

01 Document Management

Upload, organise, and retrieve ISO documentation with automated document numbering, version control, and full Activity Trail logging. Never lose a document again.

02 NCR Tracking

Full lifecycle management from creation through root cause analysis and corrective action to formal close-out. Track every non-conformance from discovery to resolution.

03 Audit Scheduling

Internal and external audit scheduling with comprehensive close-out reports. Automated reminders ensure nothing falls through the cracks.

04 Management Reviews

Per ISO 9001:9.3 — meeting minutes, decisions, action items, and branded PDF export. Management reviews become effortless, not dreaded.

05 Compliance Scoring

Clause-by-clause tracking per standard with aggregated scoring dashboards. Know exactly where you stand at a glance — and where you need to focus.

06 Activity Trail

Immutable audit log providing full traceability per ISO 7.5.3. Every action recorded, every change tracked, every export logged.

Standards We Support

Built for the standards that matter most.

INCLUDED

ISO 9001:2015

Quality Management Systems

The international benchmark for quality. We cover every clause from Context of the Organisation (4) through Improvement (10).

INCLUDED

ISO 14001:2015

Environmental Management Systems

Manage your environmental obligations with the same rigour as quality. Full clause coverage with environmental-specific compliance tracking.

INCLUDED

ISO 45001:2018

Occupational Health & Safety

Protect your people. Full OH&S management with hazard identification, risk assessment tracking, and incident management.

ISOGuardian (Pty) Ltd is currently working towards ISO 27001:2022 (Information Security) certification for our own operations — because we hold ourselves to the same standards we help you achieve.

Enterprise Security

Your data is our responsibility. We take it seriously.

AES-256 Encryption

Data encrypted at rest and in transit via TLS 1.2+. Industry-standard cryptographic protection.

Row-Level Security

Database-enforced multi-tenant isolation. No company can ever access another company's data. Not through the UI, not through the API, not ever.

POPIA Compliant

Information Officer appointed. Breach notification within 72 hours. Full data export rights. Your data, your control.

Immutable Audit Trail

Every action logged and tamper-proof. Full POPIA-compliant access records for complete accountability.

SOC 2 Infrastructure

Hosted on Supabase (EU — London) with SOC 2 Type II certification. Enterprise-grade infrastructure.

Bot Protection

Cloudflare Turnstile CAPTCHA prevents automated attacks. Session management with automatic timeout.

Why ISOGuardian?

Stop wasting time on spreadsheets

The average quality manager spends 15+ hours per week on manual compliance tracking. ISOGuardian reduces that to minutes.

Be audit-ready, always

No more last-minute scrambles before an audit. Your documentation, NCRs, and records are always up to date, always accessible, always organised.

Built for South Africa

POPIA-compliant from day one. ZAR pricing. South African support. We understand the local regulatory landscape because we operate in it.

One platform, three standards

Manage ISO 9001, 14001, and 45001 from a single dashboard. No more juggling multiple systems, spreadsheets, or consultants.

Professional exports that impress

Generate branded PDF reports with your company logo, signature blocks, and document control — the kind of documentation that makes auditors smile.

Your data stays yours

Full data export at any time. 30-day post-termination access. We don't hold your data hostage.

Ready to get compliant?

Book a free 30-minute demo. No commitment. No credit card required.
