ISOGuardian (Pty) Ltd

Enterprise ISO Compliance Management

Company Overview

ISOGuardian is a South African technology company specialising in cloud-based ISO compliance management. Our platform enables organisations to manage their ISO 9001:2015 (Quality), ISO 14001:2015 (Environmental), and ISO 45001:2018 (Occupational Health & Safety) compliance requirements through a single, integrated digital platform.

Founded in 2026, ISOGuardian was born from the recognition that South African businesses deserve modern, affordable compliance tools that meet international standards while respecting local legislative requirements including POPIA, the CPA, and ECTA.

Phone:	+27 71 606 0250

Our Platform

ISOGuardian provides a comprehensive suite of compliance management tools:

- Document Management — Upload, store, organise, and retrieve ISO documentation with automated document numbering (IG-[CODE]-DOC-001) and full Activity Trail logging
- Non-Conformance Report (NCR) Tracking — Full lifecycle management from creation through root cause analysis, corrective action, to formal close-out
- Audit Scheduling & Management — Internal and external audit scheduling with close-out reports per ISO 19011:2018
- Management Review Documentation — Per ISO 9001:9.3, including meeting minutes, decisions, action items, and branded PDF export
- Compliance Scoring — Clause-by-clause tracking per standard, with aggregated scoring dashboards
- Activity Trail — Immutable audit log providing full traceability per ISO 7.5.3
- Branded PDF Exports — Professional document output with client company branding, signature blocks, and document control

Standards Supported

ISO 9001:2015 — Quality Management Systems

ISO 14001:2015 — Environmental Management Systems

ISO 45001:2018 — Occupational Health & Safety Management Systems

ISOGuardian (Pty) Ltd is currently working towards ISO 27001:2022 (Information Security) certification for our own operations.

Security & Compliance

- AES-256 encryption at rest and TLS 1.2+ in transit
- Row-Level Security (RLS) for database-enforced multi-tenant data isolation
- POPIA compliant — Information Officer appointed, breach notification within 72 hours
- Data hosted in EU (London) on Supabase infrastructure with SOC 2 Type II certification
- Cloudflare Turnstile CAPTCHA for bot protection
- Role-based access controls with company-scoped permissions
